# Square Breathing
## TEQUNIQUE

Get comfortable! A relaxed position can help

If 4 seconds is too much, that is okay! You can start with 2 or 3!

Deep breathing has been found to relax our nervous systems. Square breathing (also know as box-breathing) is a technique for deep breathing.

## HOW DOES SQUARE BREATHING HELP?

➔ It helps our bodies cope with stress.

➔ It helps ease our panic and worry.

➔ It brings more oxygen into our bodies.
